

Dear P7 pupils!

Welcome to your virtual transition lesson for French!

There are 5 activities on the PowerPoint that can be done in any order!

- **French Quiz** – 14 trivia questions with answers - no cheating now!
- **5 'Did you know' facts** – learning about France!
- **French Identity card** – design your own French Identity card – your teacher will give you a printed template for you to use. Examples are on slide 36 and 37 of the PowerPoint
- **French numbers** – learning how to correctly pronounce the numbers in French until 20. Then, there is a YouTube link to a song to practise these numbers.
- **Chatterbox** – to practise saying numbers in French. Your teacher will give you a printed template of the chatterbox.

Slide 39 shows you exactly where to put the questions and answers. You should choose 4 numbers between 0 and 20 and write them in the 4 corners. Then you need to write a sum in the Question triangles. The answer of the sum should not be more 20 – for example 5+9 or 3x4 or 18-7 etc. The answer to the sum should be written in French in full – for example quatorze or douze or onze etc.
